Industrial & Prime Labels and Tags

Brandmark, a Wise company, is an industrial / prime label and tag supplier providing the best solution to your label and tag challenges. We utilize our extensive portfolio of raw materials and strong manufacturing capabilities to create a product that exceeds your expectations.

Labels and tags help companies promote their brand and track products along the entire supply chain. At Brandmark, our label solutions can be designed to satisfy most any requirement, including machine-applied processes, tough application surfaces, and various temperatures or weather conditions. Our labels adhere to most anything including plastic, metal, cardboard, pallets, tires, power equipment, and chemical containers. We can finish your labels on rolls, sheets or fan-folded packs. We produce the right label for you, from custom blanks and variable data printing, to four color process printing with unique adhesives and protective overlaminates.

Brandmark strives to be your leading label partner by providing superior label solutions with exceptional customer service. Our highly experienced team is standing by to help you find the right solution for your application.
