Brandmark, a Wise company, is an industrial label and tag supplier providing the best solution to your label and tag challenges. We utilize our extensive portfolio of raw materials and strong manufacturing capabilities to create a product that exceeds your expectations.

Industrial labels and tags help companies effectively track products along the entire supply chain. At Brandmark, our products can be designed to satisfy most any requirement, including machine-applied processes, tough application surfaces, and various temperatures or weather conditions. Our labels adhere to anything from cardboard boxes and pallets to tires, power equipment, and chemical containers. We can finish your labels on rolls, in fan-folded packs, or in sheeted packs. We produce the right label for you, from custom blanks and variable data printing, to 4-color process printing with protective overlaminates and unique adhesives.

Brandmark strives to be your leading partner by providing superior products with exceptional customer service. Our team is standing by to help you find the right solution for your application.
